ENCO® Group

Steel Form, spol. s r. o., Vajanského 56,
921 01 Piešťany, Slovensko

About us

Steel Form s. r. o. is one of subsidiaries of ENCO s. r. o., was established in 2001.

We are manufacturing products by precise sheet metal processing.

More than 75 % of company's production is exported to Germany, Austria, Denmark, Netherlands, Poland, Czech republic and Hungary.

Design and Technology

To better meet our customer's expectations, we have customized configured technical steps in production and product finalisation to ensure the best possible layouts to meet all technological, ergonomic and environmental, and other valid legislative requirements.

We hold ISO 9001:2015 certification.

Manufacturing technology

Modern CNC technology for sheet metal processing and laser cutting is provided by machinery brand TRUMPF.

We offer complex production process from punching, locksmith work (deburring, pressing or shooting fasteners, welding, spoting and processing of welds and surfaces), edging (thickness up to 4 mm), surface treatment ("sandblasting" with glass balls, powder and wet coating) and final assembly.

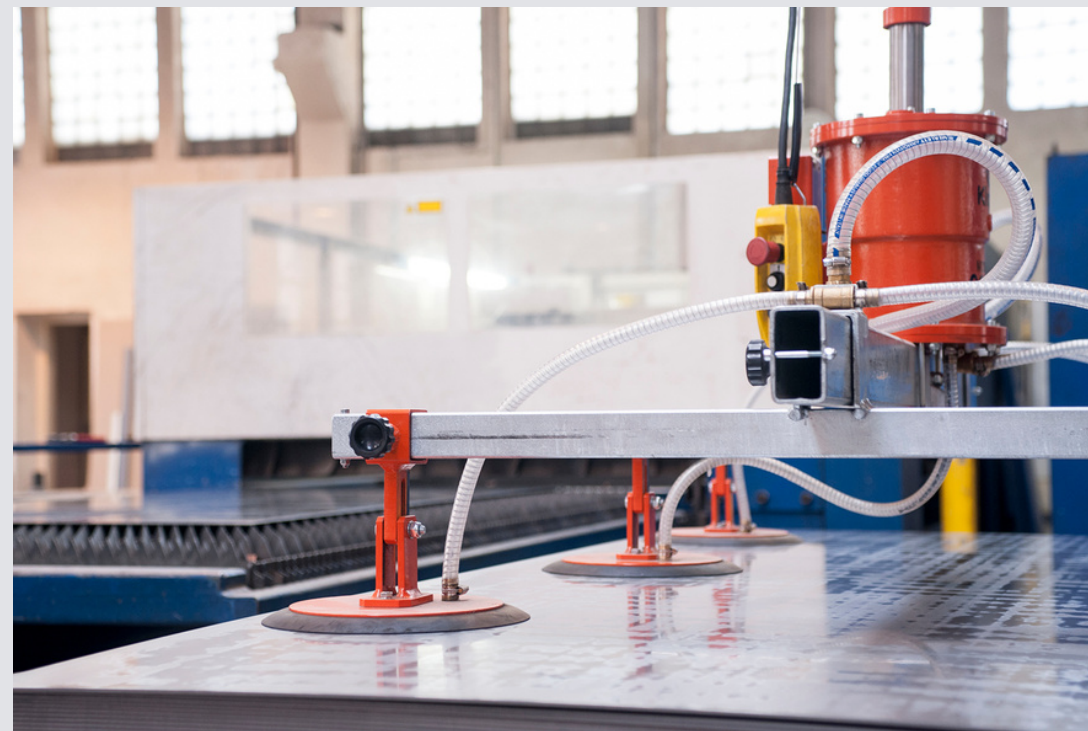

ENCO[®] Group

**steel
form**[®]

We process material of various thicknesses and types (stainless, galvanized and black steel) for punching from 0,8mm to 3mm.

For laser processing up to 20 mm (black steel), stainless steel up to 12 mm and aluminium up to 8 mm thickness.

Machinery bending

TruBend 7036

Max. dimensions:

- 1250 x 1250 mm

ENCO[®] Group

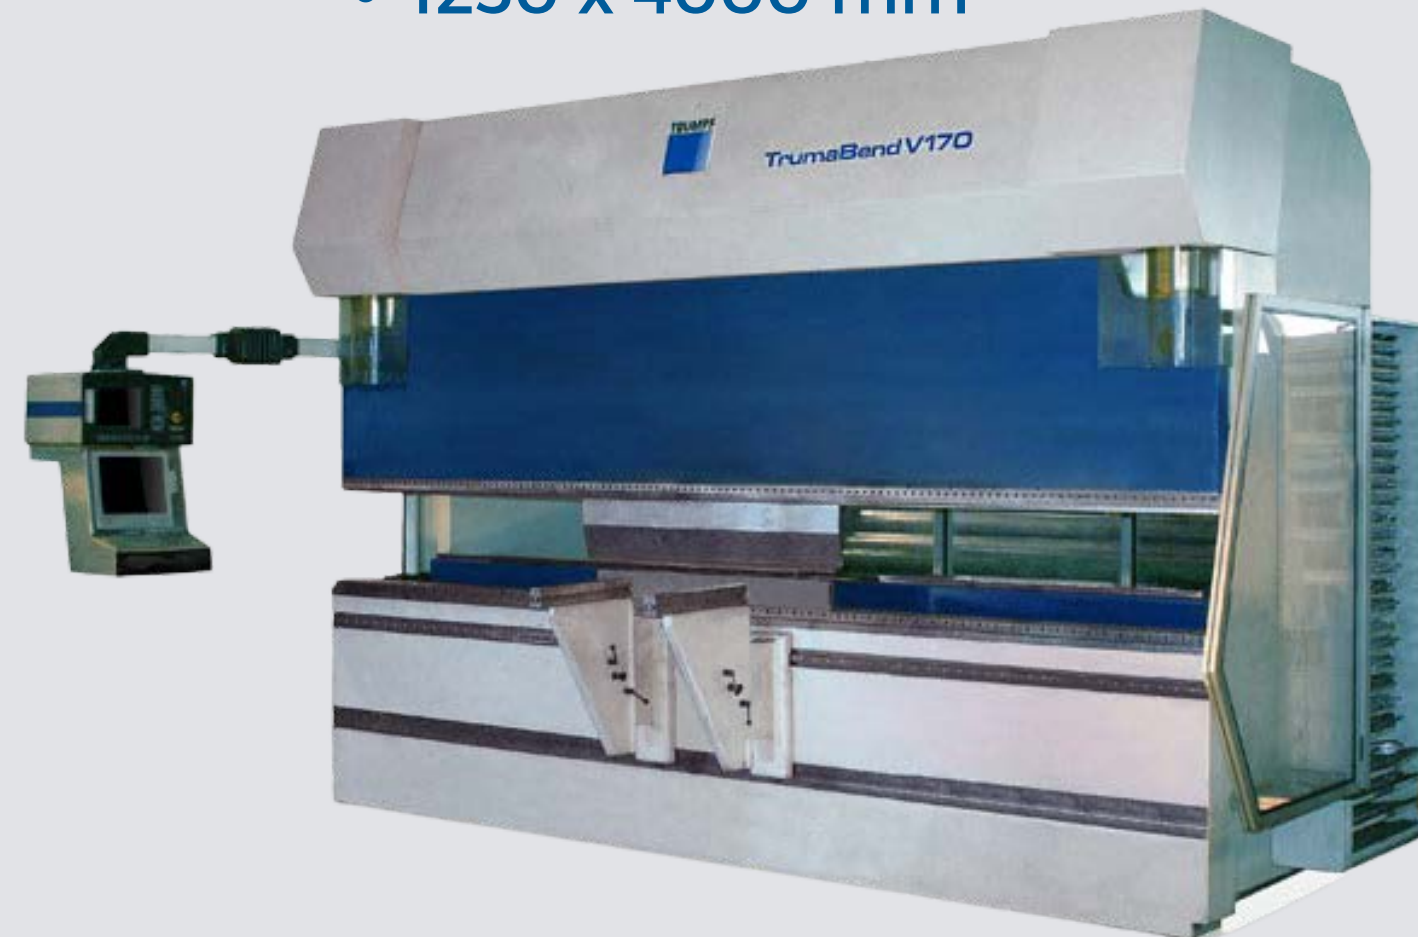

Material:

- steel
- stainless steel
- aluminium

TrumaBend V170

Max. dimensions:

- 1250 x 4000 mm

TruBend 5050

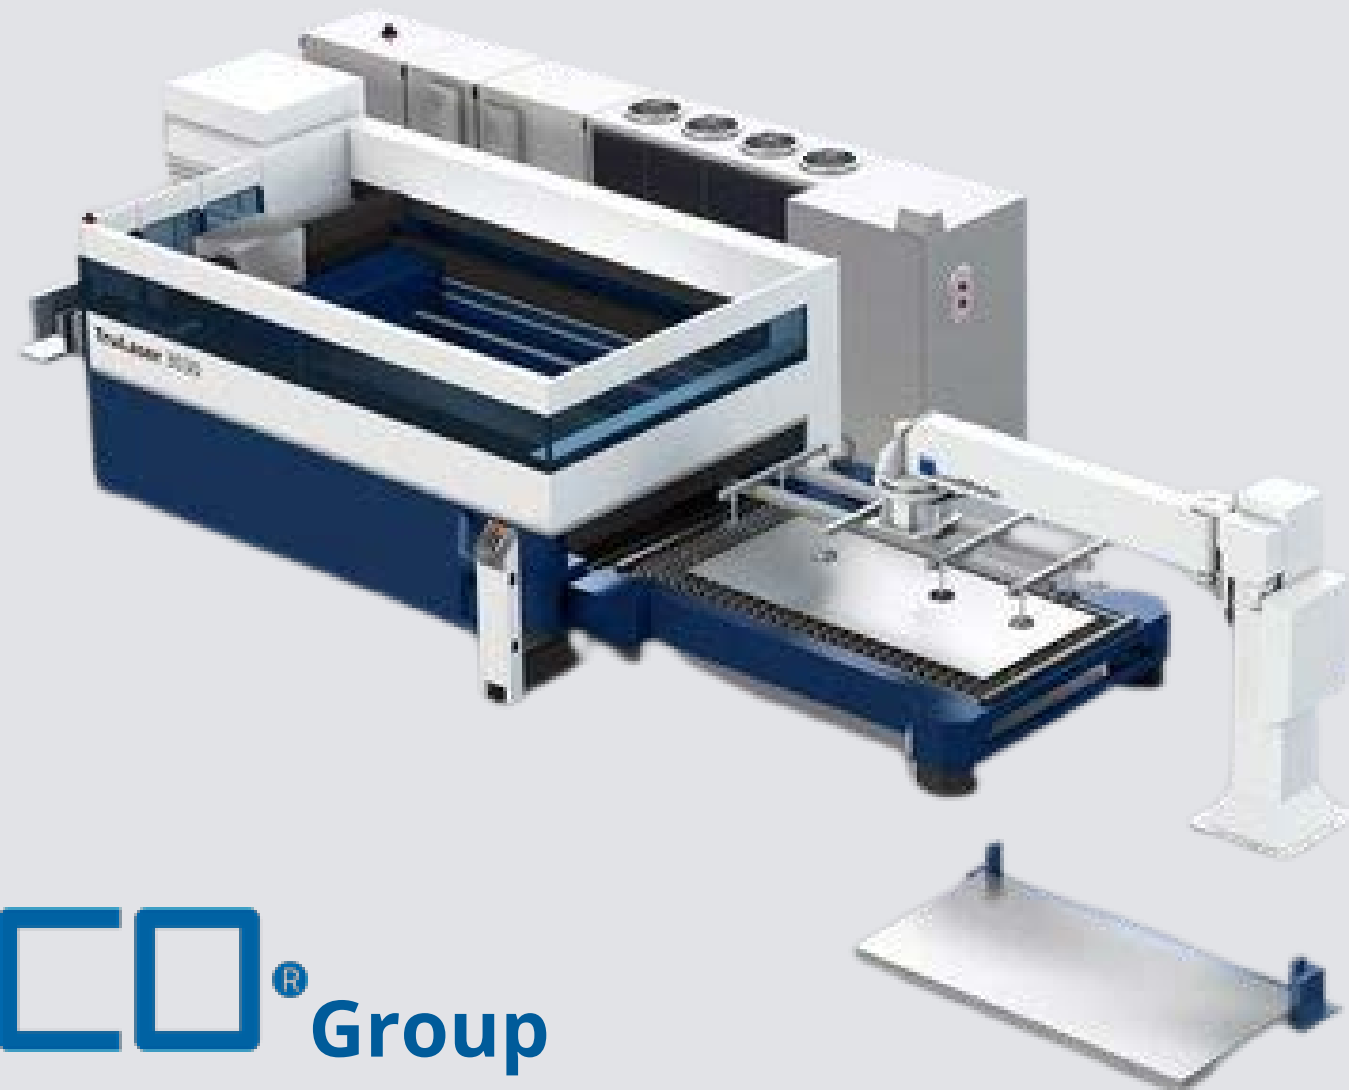

Max. dimensions:

- 1100 x 1100 mm

Machinery laser

Material:

- steel
- stainless steel
- aluminium

ENCO[®] Group

**steel
form**[®]

TruLaser 3030

Max. dimensions:

- 1500 x 3000 mm

Min. dimensions:

- 10 x 10 mm

Machinery punching

TRUMATIC 5000R

Material:

- steel
- stainless steel
- aluminium

Max. dimensions:

- 1250 x 2500 mm

Min. dimensions:

- 10 x 10 mm

Portfolio

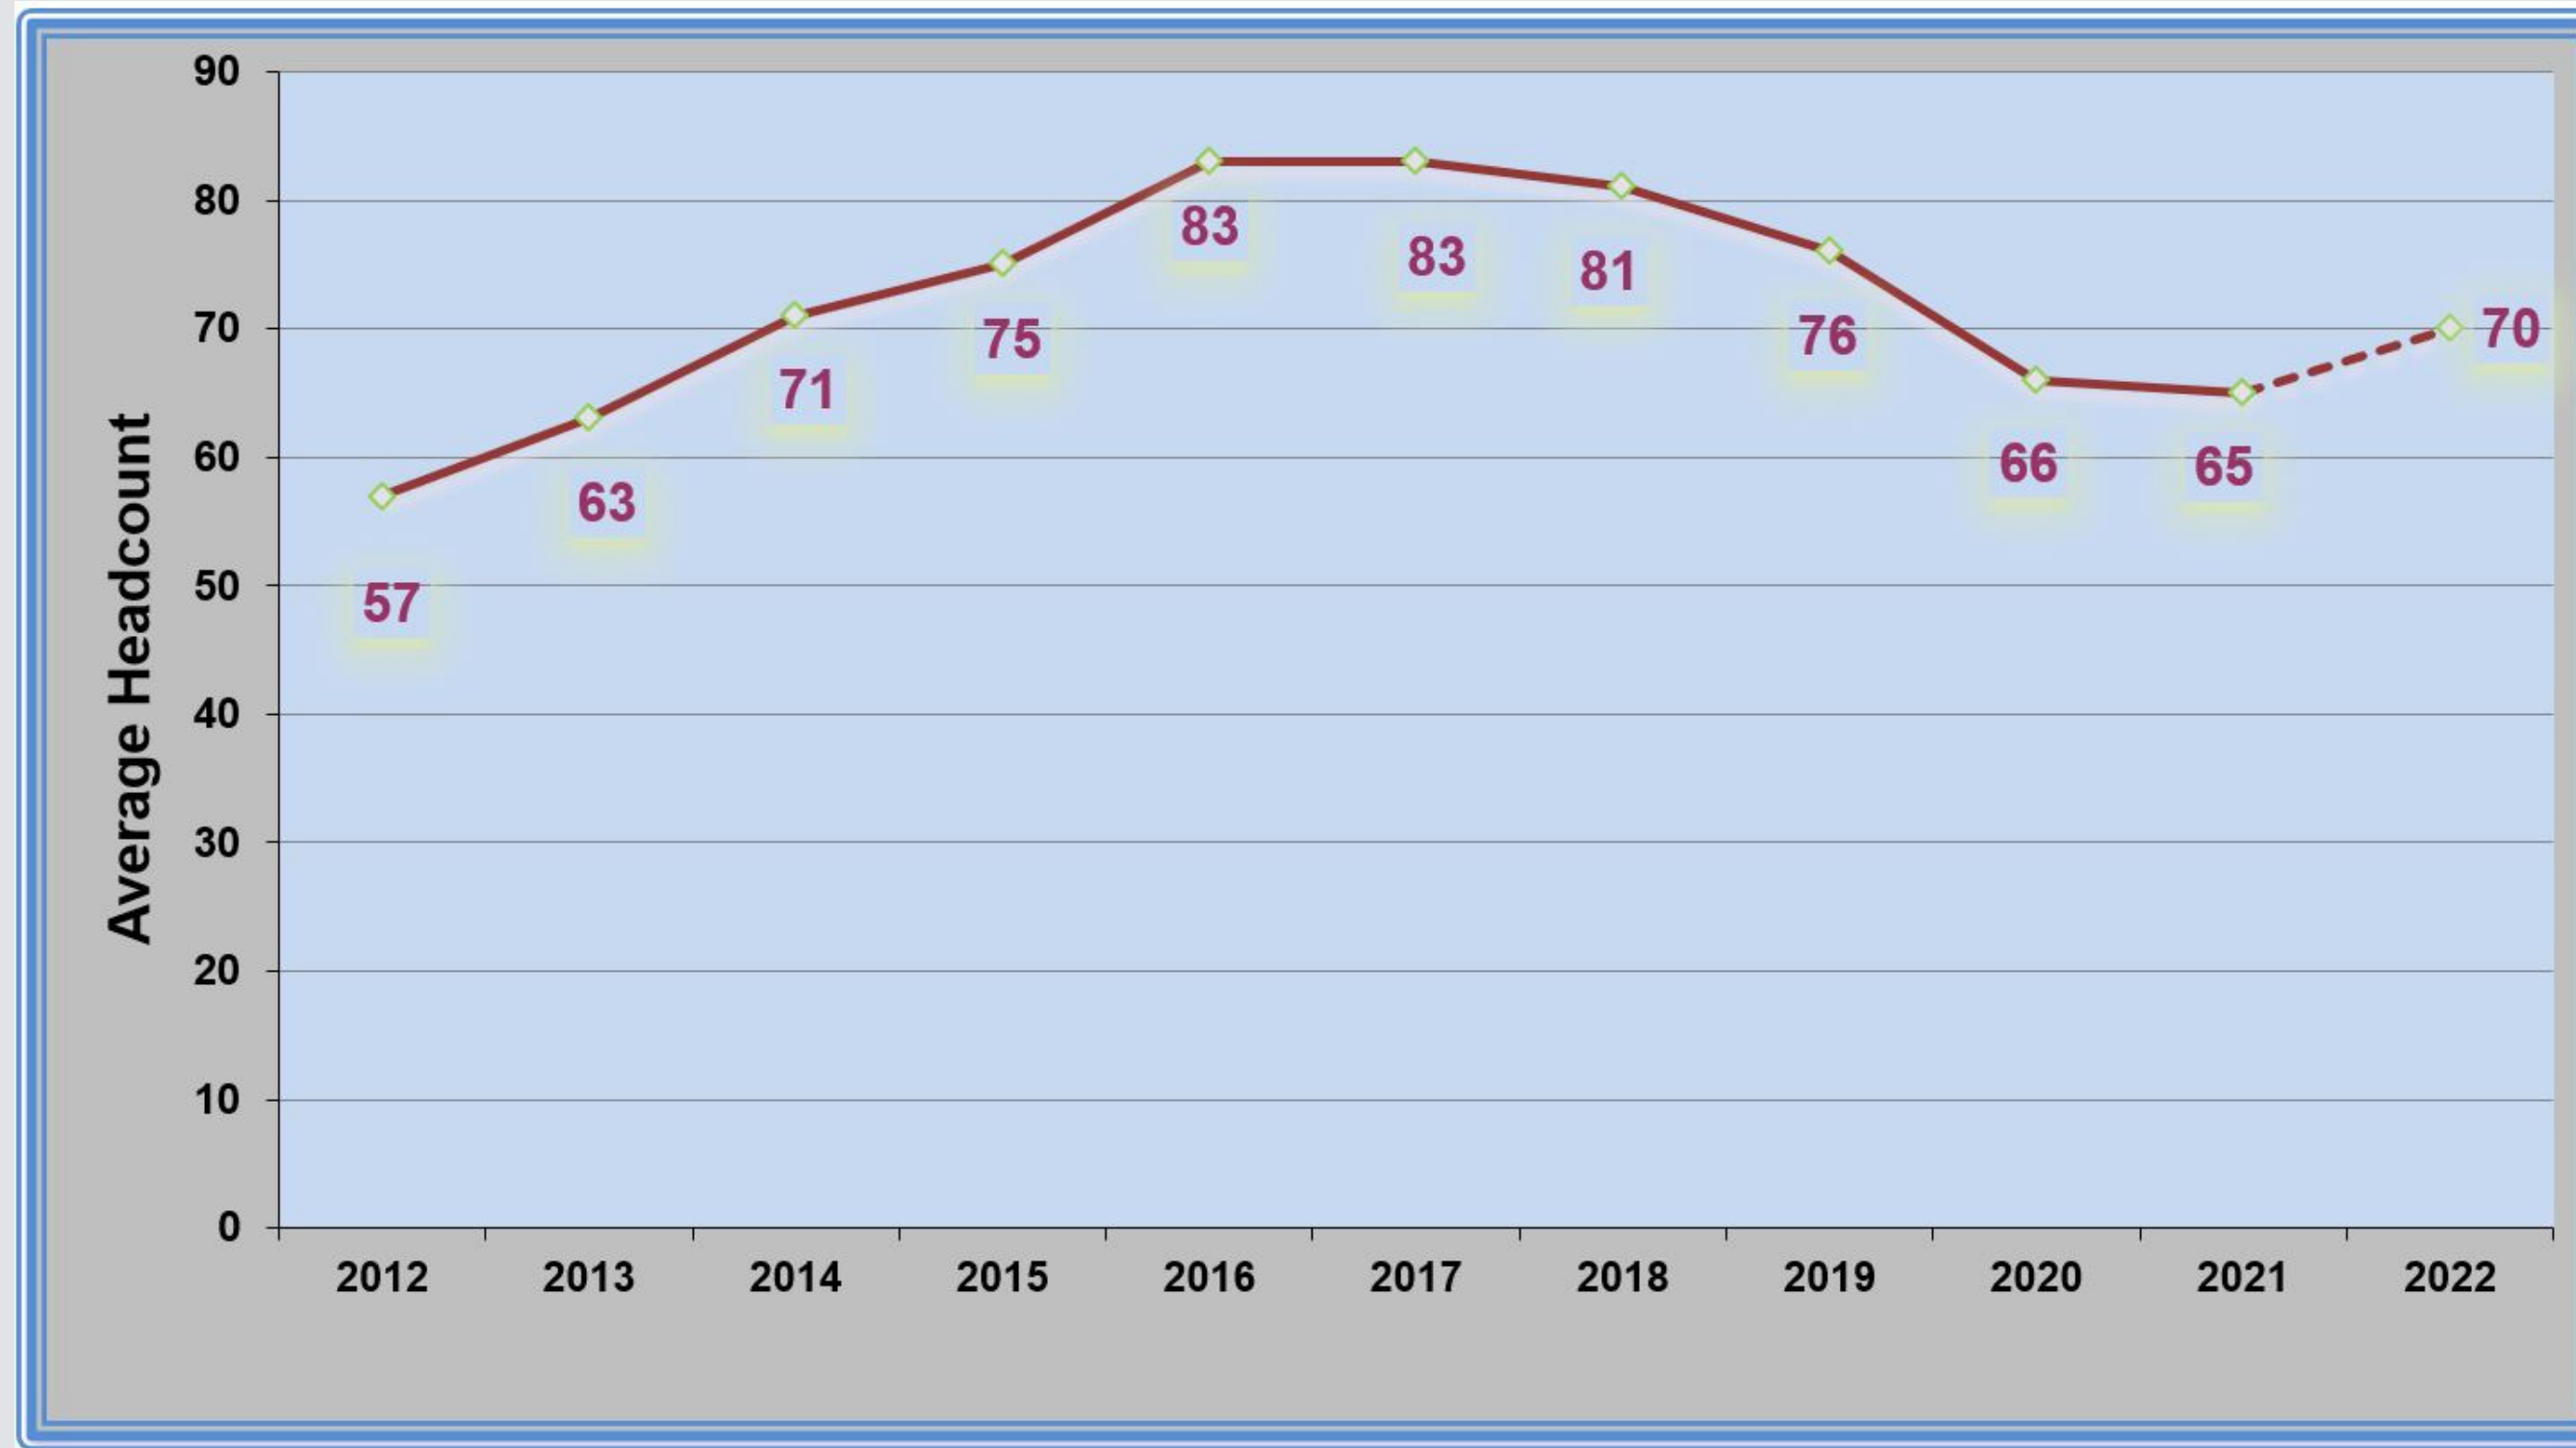

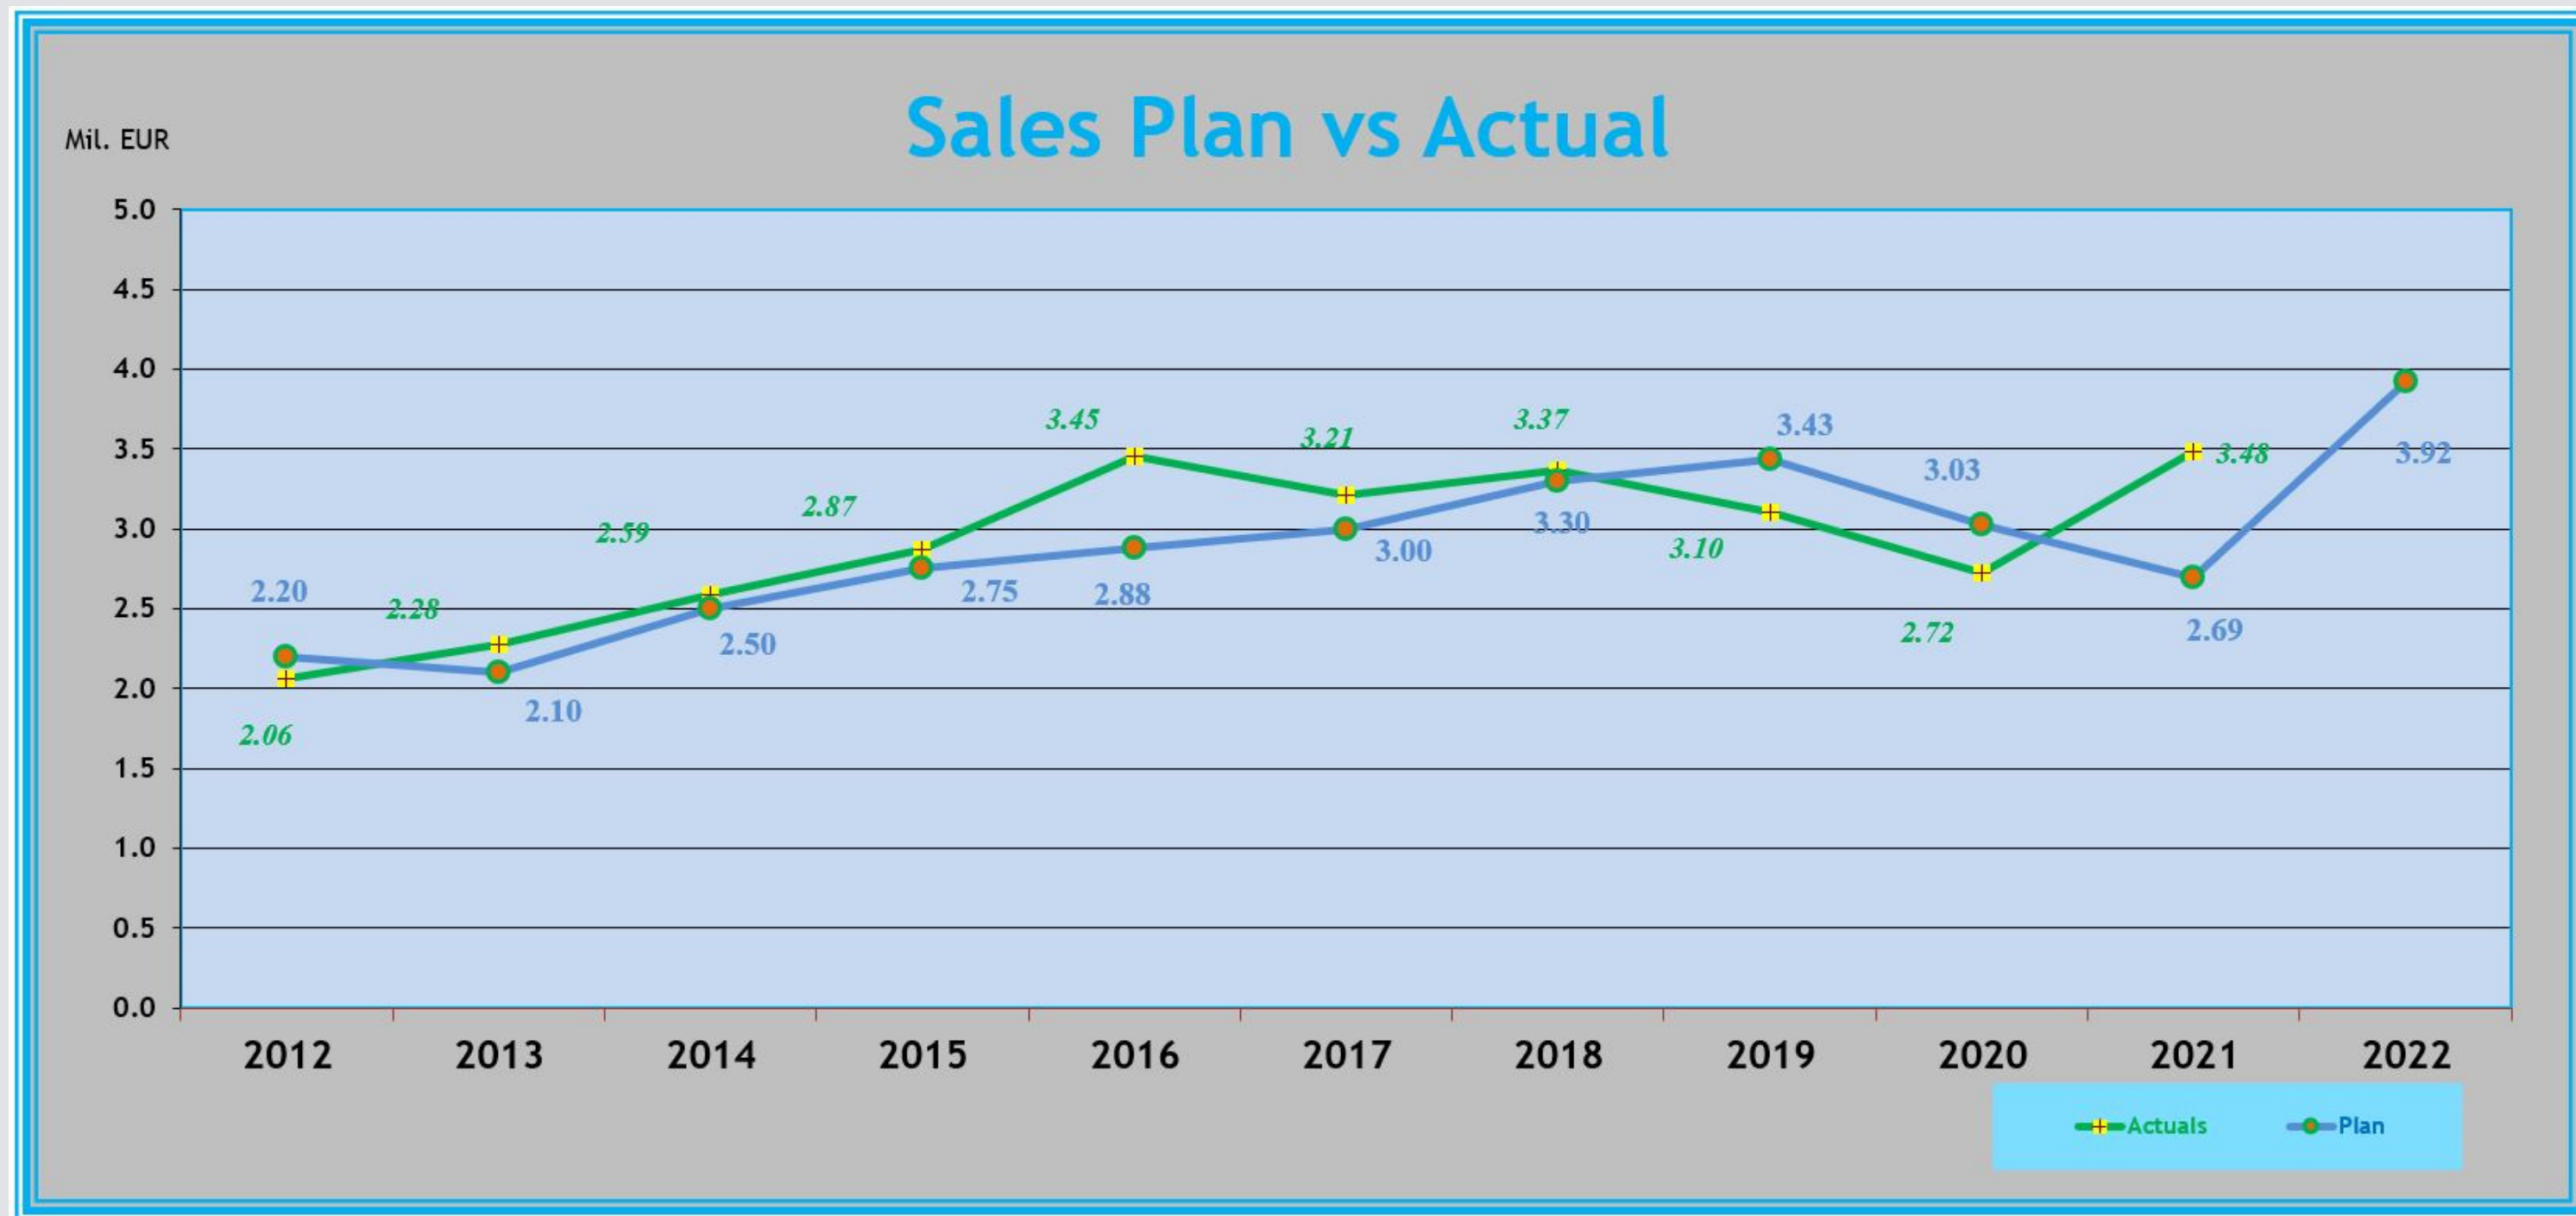

Our production portfolio:

- custom manufacturing
- clean rooms
- medical equipment
- steel doors (industrial, fire-proof, X-ray-proof)
